Innovation in Food & Beverage Packaging

BENGALURU

Friday July 27, 2018
Taj Vivanta, Yeshwantpur

Innovation in Food & Beverage Packaging

Fresh & processed packaged food industry is now entering a new phase of innovation with imaginative products designed to cater to the new generation. The emergence of food parks, e-commerce channels and startups is expected to provide the necessary impetus for the emergence of new food products including organic foods, home-grown food products & convenience foods. **The conference seeks to address these concepts with presentations from independent experts and leading organizations.**
