ABOUT (WARM-FoST)

Through *WARM-FoST*, CSIR-IITR celebrates woman by acknowledging the contribution of Women to the scientific & technological developments and in driving research & academics. Towards this, a two-day conference on *Women in Academia, Research and Management of Food Safety and Toxicology* is being organised by CSIR-IITR in association with CSIR-CFTRI and AFST-I, Lucknow Chapter at CSIR-IITR, Lucknow between 24th and 25th February 2023. The event will highlight the achievements of women scientists, entrepreneurs and academicians in varying and multidisciplinary aspects of food safety, toxicology, public health chemical & drug toxicology, technology and entrepreneurship. The conference will provide a platform for woman scientists, technologists & entrepreneurs to showcase their achievements.

ABOUT THE LOGO

The logo celebrates the *multi-facetedness, a woman carries* in everyday life and depicts *her journey to emerge as a winner*. The tricolours (saffron, white and green along with blue of the wheel of Saranath) symbolize the Indian flag and in addition pays a tribute to Indian women, in particular. The accessories on the ear, represented by double helix of DNA, indicate that women are cradles of life. The eight arms represent ASHTALAKSHMI, the Goddess of Power & Wealth. The various objects held in the hands indicate the multiple roles a woman plays in daily life including, science, engineering, management and home making. The objects held in the hands indicate a woman's multifaceted roles in daily life, including science, engineering, management, and homemaking. Green leaves at the bottom of the logo represent growth and sustainability.

CSIR-IITR & CSIR-CFTRI

CSIR-IITR, Lucknow (a constituent laboratory of the Council of Scientific and Industrial Research (CSIR), New Delhi), was established on November 4, 1965. It is the only institute of toxicology in the country contributing towards cutting-edge research and innovation in toxicology with the motto: *Safety to Environment and Health and Service to Industry*. CSIR-IITR has made an impact in addressing problems critical to human health and the environment as well as safety of chemicals/products. CSIR-IITR has taken initiatives on predictive toxicology and risk assessment using the vast knowledgebase in the areas of biomarker development, alternate to animal models, mathematical modelling, detection and development of methods for toxins/adulterants/environmental chemicals in different matrices to name a few. The institute has contributed significantly in understanding the mode of action of new chemical entities, engineered nanomaterials and genetically modified products on living systems for safe and sustainable development of new technologies. CSIR-IITR has world class infrastructure & human resource in toxicology and providing one stop solution to address environment and health issues.

CSIR-CFTRI, Mysuru (A constituent laboratory of CSIR) came into existence during 1950 with focus research and development in the areas of food science and technology. Research focus of CSIR-CFTRI has been revolved around broadly into the following areas viz., Engineering Sciences, Technology Development, Translational Research, Food Protection and Safety. Food Technology being interdisciplinary in nature, the mandate or vision of the Institute i.e., *Giving Food a Future* is fulfilled through various R&D Departments and Support Departments along with its Resource Centres.

AFST(I) & AFST(I) LKO CHAPTER

The Association of Food Scientists and Technologists (India) (AFST-I), established in 1957, is one of the largest professional organizations, with around 4000 members - food scientists and technologists, across the globe. The major objective of AFST-I is *to stimulate and advance knowledgebase on various aspects of Food Science and Technology*. A local chapter with Lucknow regional members opened on 20 December 2022. AFST-I, Lucknow Chapter, situated at CSIR-IITR has more than 35 members and is aligned with the mandate of AFST-I to serve & strengthen the food safety through science and technological developments.
